RE: NEWPORT PACIFIC'S ANNUAL CORPORATE SEMINAR AND THE MARS
VENUS SEGMENT

Dear Dr. Rowe:

It is with sincere gratitude that I send this letter to you. Thank you! Thank you! Thank you! The two of you were outstanding.

Newport Pacific has for many years held annual conferences for all of the onsite managers. Every year we attempt to make the program interesting, informative, fun, and above all a learning experience. Your program was one of the highest rated presentations we have ever received from our managers. Couple that with this year's conference being the largest gathering we have ever had made for a wonderful afternoon.

Although all sections of the presentation were meaningful and beneficial to selected individuals based upon their own experiences we have had a considerable amount of feedback from our managers on two interesting segments. They are:

1. How the brains of men and women differ and how that dissimilar wiring causes a thought process that allows on to concentrate on one point while the partner is multitasking.
2. Women when discussing an issue are often not looking for advice but merely hearing themselves think.

The group sessions served to bond a number of individuals and singled out a couple of key leaders whom we will keep and eye on for future growth.

Thanks for your help.

Sincerely,

NEWPORT PACIFIC CAPITAL COMPANY, INC.

Paul R. Prentice
Vice President of Operations
